## Full Stack Software Engineer

0493707965 | [geethikapidikiti9@gmail.com](mailto:geethikapidikiti9@gmail.com) | LinkedIn: [Geethika Pidikiti](#)

---

### Professional summary

Full Stack Software Engineer with 4 years' experience building React.js and Node.js applications that improved performance and reliability across client-facing dashboards. Delivered investor-backed features that supported product growth, optimized frontend codebases for maintainability, and guided junior engineers through mentoring and knowledge sharing. Skilled in modern JavaScript frameworks, REST APIs, AWS deployments, and Agile delivery.

---

### Skills summary

**Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Material UI

**Backend:** Node.js, Spring Boot, REST APIs

**Database:** MySQL, MongoDB

**Cloud & DevOps:** AWS EC2/S3, Docker, Git, GitLab, Jenkins

**Testing:** Jest, Cypress, Unit Testing

**Other:** Agile, CI/CD, Mentorship & Code Reviews

---

### Work Experience

#### BuildLess — Lead Developer

Aug 2025 – Present | Sydney, Australia

- Led frontend and backend development for a 6-engineer team, delivering features on schedule and improving code maintainability.
- Refactored React.js + TypeScript code for maintainability, reducing technical debt and improving readability.
- Supported knowledge transfer and onboarding for new team members, providing guidance on best practices and troubleshooting, while managing own deliverables and coordinating feature implementation across the team.
- Collaborated with cross-functional teams to plan features, ensuring alignment with product goals and user needs.

#### Startworks Technology Pvt Ltd — Software Engineer

Jul 2024 – Aug 2025 | Visakhapatnam, India

- Optimized UI rendering for faster interactions by 20% (reduced average load time from 5s to 4s) through lazy loading in React.js + Next.js, improving user experience for ~200 daily users.
- Developed and integrated Spring Boot REST APIs, streamlining backend data retrieval and reducing response times by 18%.
- Deployed applications to AWS EC2, ensuring stable production releases and minimizing downtime.
- Delivered key features that directly contributed to client product growth and business milestones.

## Infosys Ltd — Senior Systems Engineer

Nov 2020 – May 2023 | Hyderabad, India

- Designed and maintained enterprise dashboards using React.js and Node.js, supporting multiple teams with reliable, real-time data.
- Developed reusable UI components, cutting recurring defects by 25% and accelerating feature delivery across 5 enterprise dashboards.
- Implemented Jest testing, ensuring robust coverage and catching pre-production bugs.
- Collaborated across teams to deliver client-critical features on time and with high quality.

---

## Volunteer Experience

### The Flannel Project — Website Developer

May 2025 – August 2025 | Sydney, Australia

The Flannel Project is a non-profit initiative raising awareness and support for mental health programs.

- **Enhanced user experience** and accessibility for a Squarespace-based site, improving navigation and mobile responsiveness for ~100 monthly visitors.
- **Advised the founder with design and UX improvements**, aligning technical delivery with project goals.
- **Optimized UI for responsiveness**, ensuring consistent branding across devices.

---

## Certifications

- Introduction to Large language Models - Google
- Introduction to Prompt Engineering - Google

---

## Education and Qualifications

### Bachelor of Technology (Information Technology)

Vignan's Institute of Information Technology, India (July 2016 - September 2020)
